

INTEGRATE TECHNOLOGY WITH BUSINESS FOCUS

ALIGN, OPTIMIZE, AND GROW

You know your business like nobody's business, but chances are, your reliance on technology is growing every year. Increasingly, you need technical expertise that understands your business, your strategy, your needs, and your prospects at a deep, sustainable level.

EXCEL's Fractional CIO service fills the gap between what you know in the technology domain, and what you do not. We can provide extremely sophisticated CIO services to your organization on an as-needed basis, so you have access to executive-level technology talent when you need it, and only when you need it.

We'll help you sort out the technology landscape—how and when to invest, what to ignore, and how to mitigate the ever-growing cybersecurity threats that businesses of all sizes face.

Here are a few benefits that you'll realize from day one:

Technology Advantages

- Bring industry thought leadership to the Business
- Build a Technology Roadmap to be competitive in the market
- Build a Technology Strategy which aligns with Corporate goals financially and functionally

Information Security Advantages

- Improve governance, risk posture, and compliance
- Improve information and data protection
- Improve vulnerability management

Business Continuity Planning

- Strengthen records management
- Provide forecasting, budgeting, and allocation
- Manage Capital Expenditure and Operational Expenditure for IT
- Strengthen IT Infrastructure Planning and Management (Software and Hardware)
- Provide IT talent management (Attract, Develop and Retain Talent)
- Assist with community outreach and brand promotion

HIGHLIGHTS

- We'll build partnerships with your business to understand your short-term, mid-term, long-term strategies.
- We'll align your IT roadmap with your business roadmap.
- We'll advise and recommend tools and techniques that will improve your internal workflows and your external customer experiences.
- Flexible contracting allows you to decide when, for how long, and with what frequency we're engaged.
